

Computing

Year 7

Summer Support

Are you on track with your recent studies? Look through this checklist of key topics and see if you have an understanding of the key ideas. If you discover a gap in your knowledge use the highlighted tasks from the recently set work to fill in any gaps. Highlight any areas you need to work on.

All resource are in [P:\Departments\Computing\Summer Support Packs](#)

I have worked through the scratch tutorials, read the provided guidance and then produced a working arcade game using my own and/or the built-in graphical elements.

✓ / ✗

I have viewed the presentations and can describe the basic structure of a spreadsheet, apply basic formatting and use simple formulas and functions. I have completed the provided skills tasks and produced a working party planning spreadsheet as per the example.

I have used the provided presentations and guide to learn how the main HTML tags work (including HTML, Head, Body, P, IMG, and A tags) and used these to produce a single webpage, similar to the provided example, on a topic of my own choosing.

I still need to As I didn't complete.....

Challenge Time

Want to get ahead of the game and prepare for next term? Why not try this task:

- Our first topic back is developing an idea for a new local business so it would be useful to have an idea of what small businesses there are in your local area: What type of businesses are doing well/not so well? Can you spot a gap for a new local business? Where would you locate it and why? How could your new business stand out and be successful?
