Subject – **CHEMISTRY**

- Do at least five hours of independent study per subject per week.

- Use: *Doc Brown, Chem Guide* to help with general understanding, use the “work throughs” for consolidation.

- Mill Hill provides a fully comprehensive online study guide with lots of questions and answers for all Y12 and Y13 students.

- At the end of each topic, review that entire chapter in the text book. Formulate any questions based on problem areas.

- At the end of each lesson complete the summary questions, and at the end of each topic complete the practice questions in the online textbook (Kerboodle).

- Use the entirety of the Kerboodle (online textbook) resources.

- Use lunchtime / afterschool revision (help) sessions.

- Check the pupil work drive in the Chemistry folder for resources (Carre’s).
